#### Jump-Starting America's Economy - on PBS

Lynn Etheredge

Thursday's PBS NewsHour featured a story on Jonathan Gruber and Simon

Johnson's recent book <u>Jump-Starting America: How Breakthrough Science</u>

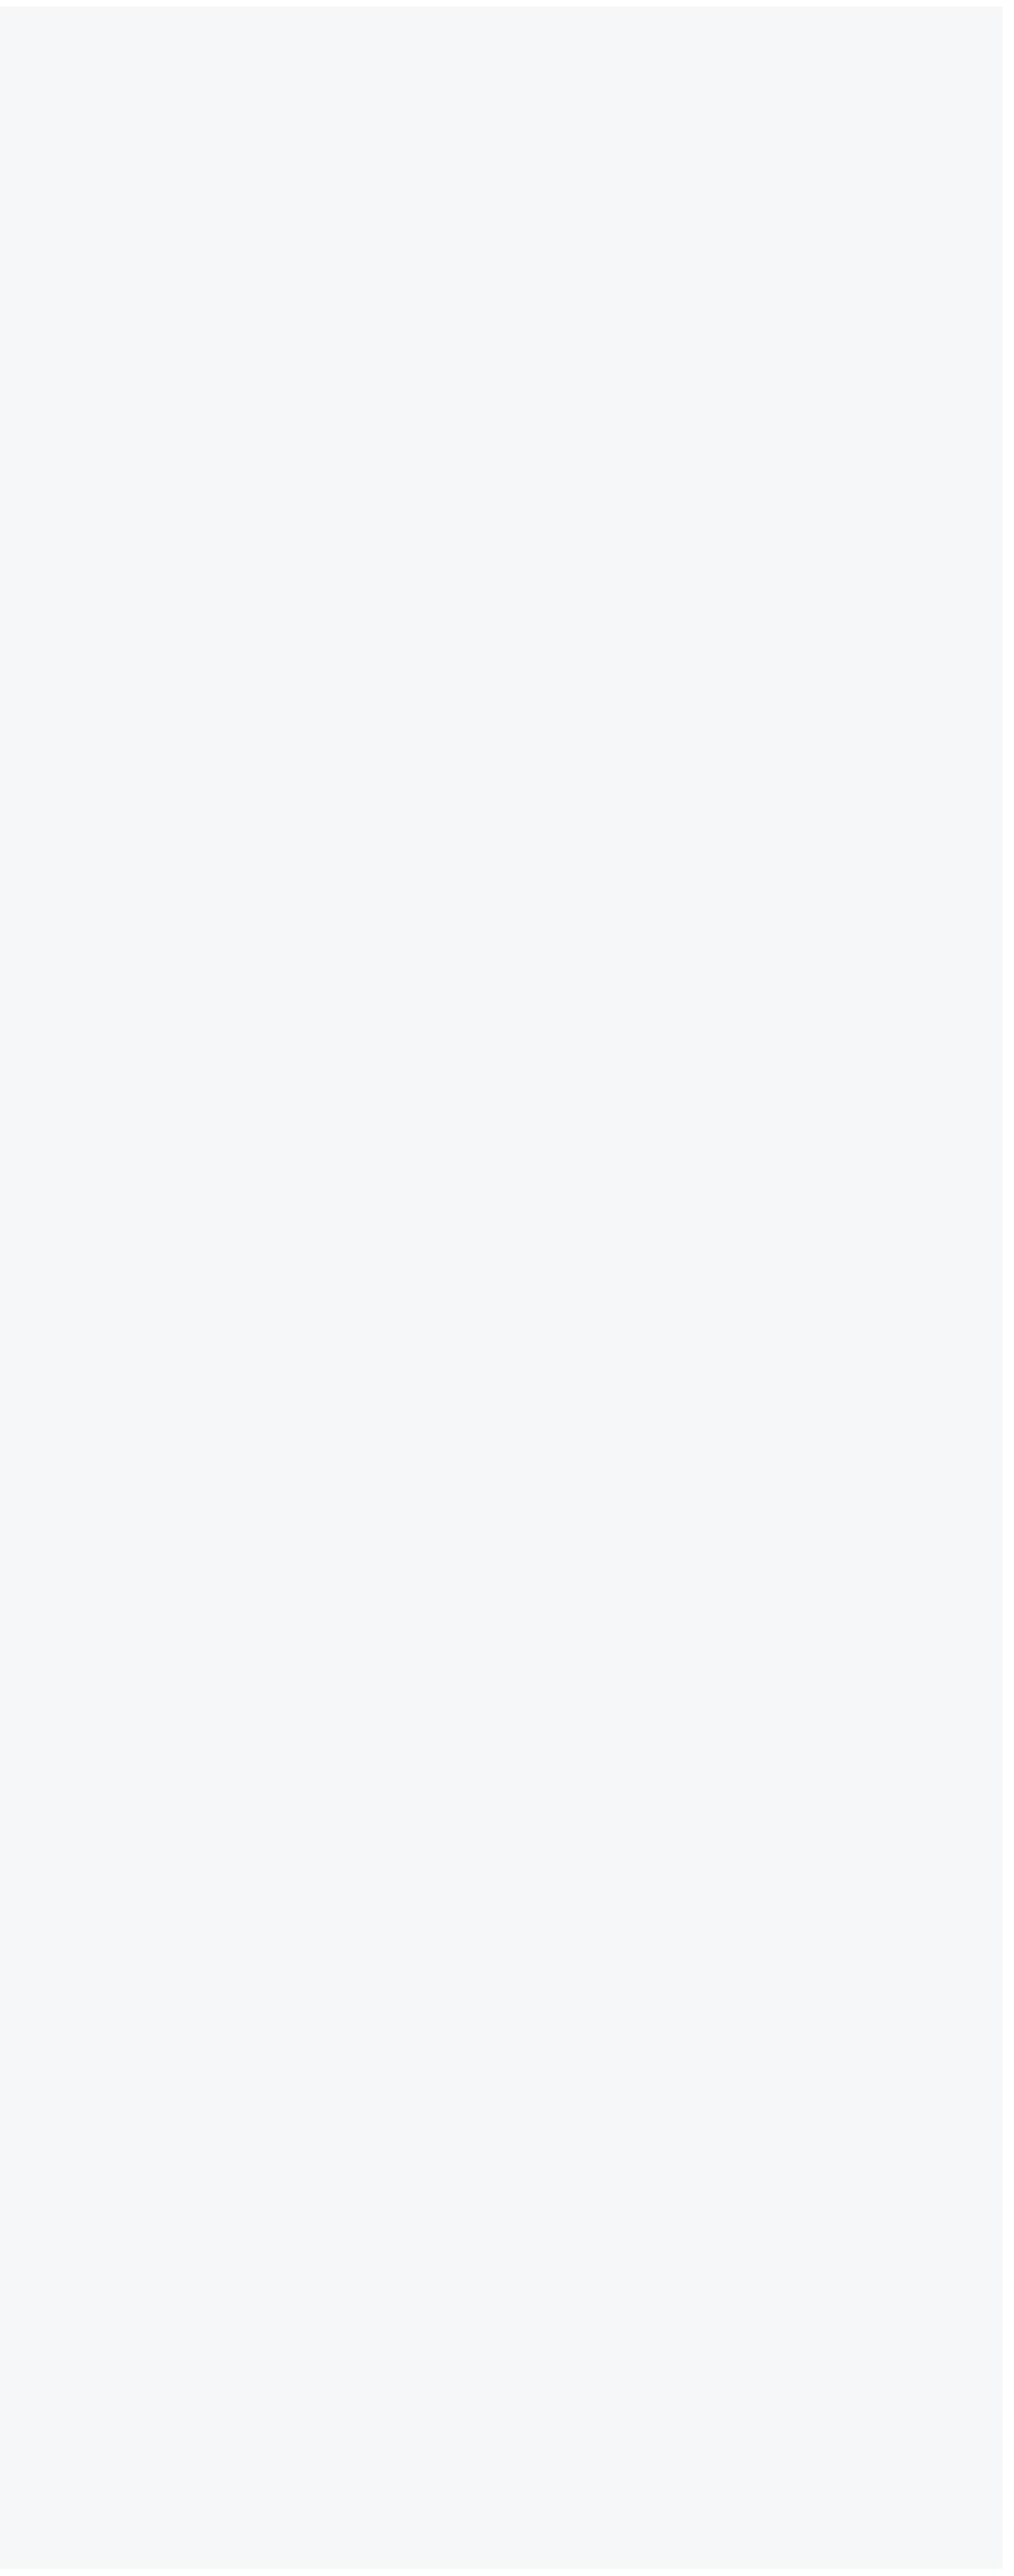

<u>Can Revive Economic Growth and the American Dream.</u> It can be viewed at:

https://www.pbs.org/newshour/show/can-an-infusion-of-public-rd-investmentrevitalize-a-lagging-economy

The report cites the Human Genome Project (HGP) as one — of many — examples of how government investment in basic research has powered the American economy. The authors report that the \$3 B investment produced (1988-2012) direct and indirect benefits of \$965 B (a 65:1 return, considerably better than the interest rate paid on Treasury bonds!), with 292,000 jobs and \$19 B in personal income in 2012 alone.

As we know, such past metrics are only the beginning of payoffs from rapidlearning bio-technology, now turbo-charging our futures, e.g. a rapid-learning cancer system (Amy Abernethy, NIH Grand Rounds 2018), artificial intelligence (Eric Topol Deep Medicine 2019), a global 4th Industrial Revolution (Susan Hockfield The
